Name: _____   UCID: _____

Worksheet 0x01

Wednesday, January 15, 2020

1. (a) What does it mean to get "hacked"?

    (b) According to your definition, have you ever been a "hacker" or "hackee"? If so, please elaborate.

2. **Structured conversation #1**: Wtf is "security"?

    (a) In your own opinion (and in the most academic tone you can muster), what *is* "security" [in the context of computing]?

    (b) Including yourself, who all took part in your structured conversation? (All four of you should list all four names *in the same order*.)

    1. _____   2. _____

    3. _____   3. _____

Name: _____   UCID: _____

(c) Based on your structured conversation, give a revised definition for "security" [in the context of computing].

(d) Designate a member of your structured conversation group to do the following: By tomorrow (Thursday, January 16) @ 17:00, post a followup to my Piazza posting that includes your group's responses to 2b and 2c.

[And feel free to comment on/critique the definitions given by other groups by replying to their followups.]
